## MANAGER SHOT THREE PLAYERS

A Suit Had Been Begun  
Which Enraged the  
Head of a Theat-  
rical Company.

## USED A REVOLVER

Fired Into the Assembled  
Players, and Is Now  
Sorry He Did  
Not Kill.

Cincinnati, O., Sept. 25.—Joseph Munzer, a theatrical manager, tried to kill the members of the "Marked for Life" company.

When the curtain went down on the last act, at Robinson's theater, Munzer notified the members of the company that he wanted to see them in his room at 218 West Ninth street at once. When they finally arrived and were seated in the little room Munzer suddenly drew two revolvers and without warning fired eight shots at the men and women before him.

When the smoke lifted, three members of the company were on the floor, wounded. They are:

**Three Are Wounded.**  
Bert Haverly, shot through the chin, the bullet ranging downward and passing through the neck; bullet not found; condition serious.

Mrs. Bert Haverly, shot in left side, near abdomen; another bullet deflected by corset stay.

Austin Longfellow, end of finger on left hand shot off.

Charles Clark, the stage manager, arrived at the room too late to pose as a target. He sprang upon Munzer, overpowered him, and escorted him to the police station.

**Resents Suit for Salary.**

The apparent cause for Munzer's act was a suit for \$200 back salary, begun by Mr. and Mrs. Bert Haverly and Mr. and Mrs. George Harris, the company having been on the road for several weeks and doing a poor business.

When the company arrived at Munzer's room he closed the door, and, after a little preliminary talk, pulled two revolvers from his pockets and pointed them at the crowd.

Bert Haverly thought that Munzer was rehearsing a part of the play and began to laugh, but Munzer, with his fingers on the trigger of each gun, was seen to press them.

**Manager Is Overpowered.**

Just before he began to shoot Munzer told them that he was tired of the manner they had been acting towards him, and that he was tired of the whole business. In the next instant one shot after another, eight in all, were fired at the group who were closely huddled together. The room is a small one, and there were insufficient chairs for them, so they were sitting on the bed and trunks.

Charles Clark, the stage carpenter, had been sent in search of several members of the company who had not arrived with the others, and entered the room just as Munzer fired the eighth shot. Munzer started to escape, but Clark jumped upon him and threw him to the floor.

Munzer, when asked what caused him to do the shooting, refused to say, but said that if he had one more bullet he would put it into his brain and end it all.

The injuries of two of the wounded are not serious. Haverly is hurt the worst, for the bullet entered the chin, and could not be taken out. The life of his wife was saved by a stay in her corset, which prevented a bullet from entering the abdomen. It was deflected by the steel. Austin Longfellow, who lost the tip of a finger, will be "marked for life."

At the hospital it was found that Haverly may be seriously injured. The bullet entered his chin, ranged downward and passed out through the neck just below the thyroid cartilage, or "Adam's apple."

**Shadow Dodgers.**

There are folks who are so careful that they dodge the shadows of their own making.

## OUTLINES PLAN FOR A FACTORY

U-PIN-IT COMPANY ASKS FOR FINANCIAL AID.

## PROPOSITION IS A GOOD ONE

Twenty-Five Thousand Shares To Be Sold at Fifty Cents Per Share—Many Subscribed For,

About twenty members of the Business Men's Association were at the meeting held last evening and the proposition of the U-Pin-It Hook and Eye company to locate in this city was talked over and considered. In the absence of President Carle, ex-Mayor Thoroughgood was in the chair. Secretary A. E. Bingham told of the object of the meeting and Mr. V. O. Mills, the president of the U-Pin-It company, read the proposition and explained at length the condition which the company was in at the present time. The limitations under which the concern wished to locate in this city were as follows: In consideration of the purchase of 25,000 shares of capital stock at fifty cents per share, the concern would agree to establish its plant in the city of Janesville and employ from forty to fifty people, four-fifths of whom will be men to operate its machines.

The concern will agree with the subscribers to the above number of shares, or with the Business Men's association to have 126,000 shares of the capital stock with three trustees for the purpose of retaining the greater part of the capital stock of the company intact. Mr. Mills stated to the association last evening that in case the 25,000 shares were subscribed, and, if at the end of the year, the business did not show a good profit, the concern would purchase the shares at ten per cent. premium. Mr. Mills, to further show the association, his faith in the business, stated that he had given up a good government position at Washington to start the present enterprise.

### No Sewing

The chief article which the company intend to put on the market is the only patent hook and eye which altogether does away with sewing. Both the hook and eye are secured to the cloth by a double clasp pin in a manner which makes the parts perfectly secure without danger of tearing the fabric and the pin points are so covered that there is no possibility of pricking the fingers. The idea is entirely new, and extremely useful for all washable garments, as the hooks and eyes can be quickly put on and off and used temporarily on other goods where the fastenings have become broken or undone.

### The Business

The following is what Mr. Mills had to say about the business and the prospect. "The hook and eye industry is open to rapid and far-reaching changes; the American people are always looking for improvements—something absolutely new and up-to-date, and this is an opportunity time, considering the present prosperity of our country to bring an absolute change in this great industry."

"The new hook and eye which has many advantages over the old-fashioned hooks and eyes, the main feature of which is to do away with sewing, will, if properly handled, unquestionably revolutionize the hook and eye industry. The demand for hooks and eyes is increasing every year and it has been conservatively estimated that the number of hooks and eyes sold for the year 1902 was over 6,000,000."

The present capacity of the concern is 200 gross per day, costing \$100, the selling price is \$250, making a profit of \$150. This production is with only two machines per day and with ten machines, with which it is expected to equip the new factory, the profits will be increased proportionately. The lower floor of the upper cotton mill was suggested as a location, as well as part of the lower cotton mill. The company also had a proposition from Victor P. Richardson to construct a building for them.

**Thoroughgood's Opinion**

Mr. Thoroughgood said that he had looked into the thing somewhat and it seemed a good proposition. Dr. F. B. Farnsworth stated that a relative of his, Dr. Wigen, had stock in the company and considered it a good investment. To start the thing going, Mr. Bostwick subscribed 1,000 shares, J. T. Thoroughgood 1,000, Dr. F. B. Farnsworth, E. W. Lowell, 500; F. S. Winslow 200 and several others said they would subscribe later. A committee was appointed consisting of A. E. Bingham, F. H. Jackman and V. P. Richardson to assist Mr. Mills in the sale of stock. A subscription paper will be left at the Bower City bank and samples of the pins made placed in Bostwick's window.

### Another Proposition

Louis Phillips and Mr. Greenbaum of Chicago were present and asked questions concerning labor conditions and possible sites in Janesville in view of starting a glove factory here. Mr. Phillips is at the head of the proposed plant and Mr. Greenbaum, a leather merchant in Chicago, is assisting him in finding a suitable town in which to begin the factory. All that Mr. Phillips asks is that a site and power be furnished him for the first year. Mr. Phillips is a practical glove man and although starting on a small scale intend to make it the beginning of a permanent factory which will in a year or two employ a hundred hands. No definite arrangements were made on this proposition last night and the gentlemen will spend a few days looking over the situation in Janesville.

**Good Tempers:** The Good Tempers will hold open lodge Friday evening. Everyone invited to be present.

## LARGE AUDIENCE AT MYERS GRAND

Witnessed Production of Excellent Rural Drama, "Quincy Adams Sawyer," Last Night.

Rural dramas seem to have the nail this season and "Quincy Adams Sawyer," a play of the "Way Down East" and "Sky Farm" style played to a large audience at the Myers Grand last evening. The audience needed no program to warn them of the approach of the winter scene and snow-storm in the last act. The chill air in the theater was a check upon enthusiasm but did not, however, prevent numerous outbursts of applause and curtain-calls at the end of each act.

The usual order of things in plays of this kind is reversed in this instance and the intruder from the city, instead of playing the part of the serpent in Eden comes to scatter sunshine along the paths of the simple country folk. Harry J. Ingram appeared to great advantage in the title role, and had the audience with him from the time of his fight with the town bully in the first act to the drop of the curtain on the love scene with Alice Pettengill, the blind girl in the last. Edith Wright played the latter difficult part in a very effective manner and was by far the best of the women in the cast. James A. Bliss as "Obadiah Strout," the village music teacher with a war record who is bent on "ousting the city chap;" Warren Cook as "Zekiel Pettengill," the good brother and unselfish lover; Marie Hayes as "Mrs. Henshaw Putnam," the revengeful woman who seeks to punish her ward; Julia Norton as "Samantha Green," the "aggravatin' brat;" and S. H. Verney as "Abner Stiles," were all excellent in their parts. The husking bee in the third act was one of the most pleasing features of the play.

## ARRESTED ON A SUSPICION

Beggar with Artificial Sores, Who Pretended To Be Selling Needles, Is Jailed.

Officer Brown arrested a suspicious character who was hovering about the edge of town Wednesday. The man had an artificial sore on his hand and arm and was evidently following the profession of beggar. When confronted by the officer and asked what he was doing, he delved into his pockets and pulled out a single paper of needles, which he said he was selling. He was taken to jail and searched and over \$5.00 in money was found upon his person. He will be kept in the lock up a few days until it can be determined with some degree of certainty as to whether or not has been identified with any of the recent thefts committed in the city.

## WISCONSIN MEN MAKE INVENTIONS

## JANESVILLE MEN BUILD COTTAGES

En Exchange Describes New Homes at Lake Kegonsa, of Local People.

An exchange in talking of Lake Kegonsa says: Among important improvements at the lakes are the rustic pavilion and boathouse built by Dr. Pember and Landlord J. F. Sweeney of Janesville. The walls and pillars are of niggerheads and cobble stones held together by cement; a cottage in course of erection belonging to Capt. H. M. Thorwile of Stoughton at Camp Columbia, the cottage of W. H. Leary, at Camp Dewey and the remodeled summer home of Erickson in the same locality. In preparation for work to be finished next year various parties have made excavations and laid foundations for boathouses and cottages. Among the number being Walter and Wallace Atkinson who have built cement walls upon which to remove the cottage used by them for many years as a summer resort. Part of the ground upon which it now stands has been sold to A. K. Roe who has a boathouse ready for the roofing and a new barn in the rear part of the property. Only two or three lots remain unsold in what has always been known as Atkinson Park, and eight hundred dollars apiece has been offered for them. It is likely that the Atkinson brothers will always reserve two lots at the "spring house" for their own use.

Manager J. W. Wells, of the Esopus & Lake Superior road has been in the east placing orders for trains to be added to the service.

## WITH LINK Gossip of Interest to Railroad AND PIN. Men.

**North-Western Road.**  
W. H. Laurence, bridge and building superintendent of the northern Wisconsin division, was here with his motor car and crew of inspectors yesterday. A portion of the afternoon was devoted to the inspection of the bridges and roadway in this vicinity. The coal-shed and approach and the Lena viaduct were left to Foreman F. W. Ellis of the local department. The inspectors left for Rockford at eight o'clock. They have been at work four weeks and a few years ago an inspection of the same division would be completed in a week but more painstaking methods are in vogue now.

There is an insane patient at the Juneau county institution which overlooks the North-Western tracks, whose actions have long excited the curiosity of the trainmen. He stands with a notebook and pencil, watching every train that passes in the daytime, and taking down the number of each car. So remarkable is his observation and memory that all numbers he is unable to write while the train is passing are carried in his mind and put down at leisure. The man's name is not known but he is thought to be a former railroad worker.

William Grate is the North-Western's champion "steam shovel" at present. His record in shoveling coal from the condolas is thirty tons a day. So far as is known he is the best in the business in this vicinity. His work has only been eclipsed by Charles Minnick for whom an extra large size shovel had to be made to order two years ago. Minnick would unload a gondola containing 60 tons, single-handed, in a day. Mr. Grate will be on the pension list in a few years now and will receive a sum monthly for the balance of his life equal to ten per cent. of the wages received by him the last year he works.

**Good Financial Showing**

The financial report was not less pleasing than the membership statistics. W. E. Clinton reported that all of the expenses had been met and that the books showed a goodly sum on the right side of the ledger. The outlook for the coming year was likewise encouraging.

### The General Staff

Charles H. Eller commanded "The General Staff" for the good work accomplished during the year. Just closed and offered the report of the committee appointed to make nominations for the church officers to serve during the ensuing year. The report was adopted by a unanimous vote.

### Other Responses

W. H. Rose discussed the work of "The Sunday School" and offered pertinent suggestions for the future. J. S. Taylor spoke in a similar manner of "The Christian Endeavor Society." Mrs. L. L. Leslie discussed "The Mission Circle"; Mrs. E. E. Yetes' "The Ladies' Aid Society;" Mrs. C. B. Anderson, "The King's Daughters;" and Miss Beth Palmer, "The Helpful Circle." The "Young Men's Class" and its work was J. C. Staton's topic. Miss Eliza Stoddard offered some helpful hints for the "Readers' Guild," as did likewise Miss Gertrude Granger for the "Young Ladies' Missionary Society."

### Pastor Speaks Last

Following the discussions of the various organizations of the church, Miss Olive Richwine responded to "A Plece;" Rev. L. G. Catchpole spoke on "Our Business," and Miss Nellie Smiley presented "A Modern Book of Chronicles;" and Supt. C. R. Showalter of the State School for the Blind discussed "Our Motherhood." The last mentioned responses were of especial interest to everyone present. Rev. Vaughan reviewed the various subjects that had been touched upon by the speakers and in conclusion eulogized the bond of friendship that united all in one strong body for mutual good. He offered a blessing and bade his congregation Godspeed. Altogether, the meeting was the most successful that has been held in the history of the church.

### The New Officers

The officers placed in nomination and elected were: Sunday school superintendent, L. K. Crissey; assistants, W. H. Rose, G. A. Crossman, and Mrs. C. D. Childs; secretary and treasurer, A. C. Campbell; librarian, Fred Isaac; primary superintendent, Mrs. L. G. Catchpole; church clerk, J. T. Fitchett; assistant, Mrs. J. T. Fitchett; trustees, B. F. Dunwiddie, Stanley B. Smith and E. N. ## BAPTISTS HELD ANNUAL SUPPER

AN INTERESTING PROGRAM WAS GIVEN LAST NIGHT.

## REPORTS OF THE CHURCH

The Past Year Has Shown Marked Prosperity for the Church in Janesville.

Four hundred and fifty members of the First Baptist church and society attended the annual meeting held in the auditorium last evening. At half past seven the pastor invited the congregation to the parlors. The latter had been transformed into a banquet hall and the long snow-white tables, glittering with silver and glass and decorated with cut flowers, presented an alluring scene. The chandlers had been trimmed with autumn leaves and an orchestra, seated on a platform in the front end of the hall, completed the appointments and materially added to the enjoyment of the evening.

**A Sumptuous Repast**

The repast, provided by the members of the ladies' societies and served by the younger members, was a bounteous one and elicited words of commendation from all of the banqueters. It was preceded by a blessing offered by A. F. Hall and concluded with a number rendered by the orchestra. The pastor, Rev. Richard M. Vaughan, acted as toastmaster and introduced as the first speaker of the evening, J. T. Fitchett, the church clerk.

### Membership Increased

His subject was "A Leaf From the Records" and his remarks were concerned with statistics which proved highly gratifying to every member present. Sixty-four new names had been added to the membership of the church during the past year. There had been a loss of thirty-two from death or removal from the city and other causes, leaving a net gain of thirty-two. The total membership of the church was 618.

### Good Financial Showing

The financial report was not less pleasing than the membership statistics. W. E. Clinton reported that all of the expenses had been met and that the books showed a goodly sum on the right side of the ledger. The outlook for the coming year was likewise encouraging.

### The General Staff

Charles H. Eller commanded "The General Staff" for the good work accomplished during the year. Just closed and offered the report of the committee appointed to make nominations for the church officers to serve during the ensuing year. The report was adopted by a unanimous vote.

### Other Responses

W. H. Rose discussed the work of "The Sunday School" and offered pertinent suggestions for the future. J. S. Taylor spoke in a similar manner of "The Christian Endeavor Society." Mrs. L. L. **COUNTY NEWS****PORTR**

Porter, Sept. 25.—James Riley has returned home after visiting relatives in Janesville.

Mrs. Orfa Fessenden is convalescing from a severe attack of the grippe. Her mother, Mrs. Jessup, of Fulton, has been caring for her.

After a one week's illness of pneumonia Mrs. Mike Ford closed her eyes in the sleep that knows no death on Thursday, Sept. 17th.

Besides a sorrowing husband, five children are left motherless. The funeral was held on Saturday services in St. Patrick's church and the remains were interred in the Mt. Olivet cemetery.

Some of the farmers have commenced cutting corn.

A merry party of young folks composed of Misses Mamie Kealsy, Grace Lay, Maggie Kennedy, Ida Murray and Josephine Nichols and Messrs. Jas. Lay, A. Collins F. Montgomery, A. Nichols and M. Kennedy spent a Sunday recently at Lake Koshkonong, the day was most enjoyably spent and the same party are planning another day's outing at the same place.

Scarcely 20 years old, and after an illness dating back about two months Mamie Dooley was called to the world beyond on Monday evening Sept. 21. Although every thing that an indulgent and kind father and friends could do was done 'twas of no avail, as the Grim Reaper Death had marked her for his own.

Mamie was an estimable young lady, a graduate of the Janesville high school in the class of '02 and holding a first grade certificate she spent the past year teaching, and indeed a bright career seemed before her, but the Lord willed it otherwise. The funeral was held on Thursday services being conducted in St. Patrick's church Janesville after which followed a procession a mile long of sympathizing friends and relatives all that was mortal of a bright lovable girl was laid to rest in Mt. Olivet cemetery beside the mother who had preceded her but a year and a half ago.

Besides her father two sisters and three brothers are left to whom our sincere sympathy is given.

Willie Dooley who is attending school in St. Paul arrived on Tuesday to attend the funeral of his sister.

Roxie and William Bates are attending school in Elgerton.

## HIS REPUTATION ABROAD.

Gov. La Follette is gaining an unenviable reputation away from home. The New York Evening Post recently said of him editorially:

"The one touch needed to make complete the republican factional fight in Wisconsin is furnished by Governor La Follette's refusal to shake hands with a stalwart postmaster at the Manitowoc county fair. If there are possible political issues not already injected into this campaign they are so slight that their omission escapes notice. The statistician finds his tabular in the almost numberless tables and charts put forth to substantiate and to rebut the governor's charge that the railroads have discriminated in their rates against Wisconsin. The man of less simple tastes can revel in the variegated and spicy charges of lobbying, while the old party war horse, who never takes his eye entirely away from national issues, is edified by the news that Gov. Durbin's opponents in Indiana are planning to squelch that executive's presidential aspirations by boozing La Follette for the second place on the national ticket. In the multiplicity of issues every voter finds reading matter to his liking. The 'stalwarts,' who controlled the state senate last winter, are now going before the people on their record, which includes the defeat of some of the governor's pet measures and the important modification of others, including the primary election bill. As matters stand La Follette is, if anything less of a national figure than he was two years ago."

## GOLD BRICK SWINDLERS.

John Hill Jr., a member of the Chicago Board of Trade, has devoted the last 10 years of his life to exposing bucket shops, and gold brick swindlers. He has prepared a series of articles on "Gold Bricks of Speculation," that are now being published in the New York Commercial, and that will later appear in book form.

Mr. Hill asserts that \$100,000,000 is being squandered annually in this country on this class of investments. He goes into the matter thoroughly, exposing all sorts of schemes. It is considered by financiers as good authority and his expose should prove a warning to speculators. In his opening paper he says:

"While I do not anticipate that the public will heed the warning, I believe an expose, such as I am in position to make, may have the effect to at least arouse the postoffice authorities and the press to a realizing sense of their duties in the premises."

The public, so far as the swindlers are concerned, includes all classes, from the laundress to the lawyer and clergyman and merchant. It dwells on the farms, ranches and plantations, and in every hamlet, village and city of this broad land. But distance is quickly bridged by Uncle Sam's fast mail and the public's money flows incessantly into the 'get-rich-quick' specialists' hands, through that artery.

The swindlers treat all alike.

Of this vast sum wrung from the thrifty by false pretenses, about \$20,000,000 is spent for newspaper advertising; about an equal amount for postage stamps, and vast sums for blackmail, attorney's fees, circulators, booklets, stenographers, clerks, telegraphing and furnishing suites of offices. The swindler is usually a reckless spender and squanders his ill-gotten gains.

I do not believe that there ever has been a more careful or systematic investigation of fraudulent methods of getting the public's money than that which I have made in the past eight years. The investigations were semi-official and made under favorable conditions. I have carefully kept records of important cases; prosecuted scores of fraud

cases in behalf of the defrauded parties and for the purpose of riding Chicago of this class of vampires in the interests of legitimate brokers and exchanges.

In the year 1895 conditions had become intolerable by reason of the great number and variety of the "get-rich-quick" schemes and bucketshops operated in Chicago. At that time I was a director of the Board of Trade and was appointed on a committee to investigate and prosecute the fraudulent concerns. I have followed up this line of work ever since, and have had occasion to examine into the methods of more than 1,500 schemes to defraud the public.

## TWO OF A KIND.

Ex-governor Ilford's paper, the Jefferson County Union, says, "There are lots of corporation serving politicians in the Democratic party of Ohio who hate Tom Johnson for he stands for the ideal and purposes that political parties should be made to serve the people. \* \* \* All honor to men like Johnson and La Follette who stand faithfully for those rights."

The gentleman from Nebraska, familiarly known as William Jennings Bryan, seems to have been overlooked! Wisconsin's erstwhile governor has no more staunch supporter, or ardent admirer than the editor of the Commoner. Better make it three of a kind and take in the trio.

It is also a significant fact that the free silver press of the country, as well as the college professors, who were carried away by the 16 to 1 dollar, are also in sympathy with the trio.

There are certain magazines that pose as leaders of thought on economics, which find a great deal to commend in leaders of this class. It is fortunate for the country that these classes are in the minority.

Rev. Albert Froehliche pastor of the German Lutheran church at Neenah, has gained the ill-will of Grand Army men by refusing to permit one of his parishioners, an old G. A. R. man, to be buried by his comrades. Deceased had selected his pallbearers from members of the post to which he belonged, but they were informed that they would not be admitted to the church, and the American flag that was wrapped around the casket was ordered removed. The dead man was buried in his uniform, but the brass buttons had to be removed from his coat. The ruling seems arbitrary, to say the least.

Secretary Shaw has again come to the relief of the financial world, and from forty to eighty million dollars will be released from the surplus in the U. S. Treasury, as needed. He proposes to redeem government bonds to that amount, that are now held by sub treasury agents, allowing them to substitute state and municipal bonds on a basis of 75 per cent on the dollar. Secretary Shaw is resourceful and the government is fortunate in having him at the head of the Treasury department.

In the death of ex-Senator Chas. B. Farewell, Chicago lost another old land mark. Mr. Farewell has been prominent in financial and business circles since 1844 and has contributed much to the prosperity of the city. He lived to a ripe old age, and leaves an untarnished record both in public and private life.

The Minnesota State fair cleared \$71,000 this year. It might pay the Wisconsin management to go up and find out how it was done. Minnesota appreciated the value of newspaper advertising, which may have some thing to do with it.

Sparks, the New York agitator, who is under indictment succeeded in gaining recognition at the Kansas City labor convention, and will again be turned loose on a long suffering public. Labor has gained nothing by the move.

Mayor Low will succeed himself in New York. The Fusionists, as well as the republicans have endorsed him. He has made a good presiding officer, and the city is to be congratulated.

It is reported that the governor accompanied by his railroad commissioner has gone to Chicago on a secret mission. How the railway officials will tremble when they discover his arrival.

La Crosse is the only city of any importance in the state that refused to join the state business men's association. La Crosse will be the loosier.

The Jefferson county fair enjoyed good weather and no interference from the governor. The management is to be congratulated.

Kentucky Justice has redeemed it self by convicting Curt Jett, for the murder of Lawyer Marcus of Jackson county.

It is surprising how many people are content to live in a state that is so unsatisfactory to the chief executive.

The railroad companies have decided not to retire from the state until after the next election.

Chicago is soon to have a celebration. Well some of the Indians who

came for the occasion can doubtless remember 100 years ago when the streets were just as dirty and muddy as they are now.

Mr. Mitchell remembers what President Roosevelt was to the coal miners strike last year and will support him.

That Kansas City convention of structural workers does not seem to be harmonious as it was thought it would be.

## HALLWAY IS VERY HANDSOME

Radiators Will Soon Be Put in Place—Small Windows Have Oak Casings.

The radiators which will keep Uncle Sam's postmen warm in Janesville arrived at the new building yesterday and will be installed in the different rooms as soon as possible. The interior of the fine building is rapidly assuming a finished appearance and the entire structure, both inside and out will be something for residents of the Bower City to be proud of.

### Finishing Woodwork

The walls and ceilings of the lower floor are now being finished and will be pure white. In the main hall the ceiling is very handsome and contrasts well with the marble work around the base of the wall and at the foot of the stairway. These steps which show well from the Franklin street entrance, lead up to the second floor with a single turn to the left.

### Will Be Warm

The iron work to some of the windows through which the business of the city is to be transacted is already in place and the designs of these windows and the oak wood-work around them are especially attractive.

The number of radiators ordered to warm the building has been figured according to the amount of square feet of space to be heated in each room this will ensure a uniform temperature in all parts of the building during the cold months.

### BRIEFLETS

**Railway Clerks' Officers:** The officers of the Janesville-Beloit branch of the International association of Railway Clerks, elected Wednesday were: Alva Hemmens, president; Cashier Mosher, of the St. Paul freight house, Beloit, vice president; G. R. Hollister, of Beloit, treasurer; B. F. Cary, of Janesville, recording secretary. Regular meetings will be held twice each month in the Trainmen's hall for the present at least. There are sixteen members in the organization.

**Horse Recovered:** The harness stolen from J. W. Gower, the horse stolen from his brother, and the rig belonging to Will Dean, which disappeared together from Emerald Grove Tuesday night, were all found near Clinton Wednesday afternoon. The horse was hitched near a slaughter house on the outskirts of the town, and the thieves that robbed the post office and store evidently took the train from that point. Several other better horses and vehicles were in the barn at the time the theft was committed.

**Little Girl's Find:** The little daughter of G. D. Charlton found \$13 in money in the street yesterday. A man standing in the vicinity at the time told her to give it to him and that he would advertise it in the papers. No advertisement has appeared and Mr. Charlton has made investigations to learn the identity of the man.

**Woodmen Will Dance:** The Forester team of Woodmen have planned a dance to be given Monday September 28, at the West Side Odd Fellows hall. Good music has been arranged for and a jolly time is expected by the members.

**Celebration a Success:** A delightful program was given last evening at the West Side Odd Fellows hall by the Janesville Lodge, No. 171, Daughters of Rebekah. At the conclusion of the entertainment, a pleasant informal dance was held, which was much enjoyed by all present.

See the Sunday Chronicle of the 27th inst., for fine story of Women Devoted to Art in Janesville. Story relates of the work of the Art League with pictures of the officers which include Mrs. Ashcraft, Mrs. Fanberg, Mrs. McGowan, Mrs. Kimberly, Mrs. Tarrant and Mrs. Burr.

## PLAYERS WORK IN GOOD FORM

### HIGH SCHOOL GRIDIRON ENTHUSIASTS TURN OUT WELL.

### PROSPECTS ARE EXCELLENT

A Second Team is Planned For to Give Regulars Practice in Scrimmage Plays.

Uniformly lively is the practice of the high school followers of the pig skin out on the practice field each afternoon, and was, if anything, exceeded at the last practice yesterday. The boys are confident that they will give Whitewater a stiff game Saturday after next.

### First Lineup

The temporary lineup yesterday was: Keldo C. Carle, L. G. Miller, L. T. Ryan, L. E. Kennedy, R. G.; Atwood, R. T.; Clithero, R. E.; Galbreath, Q. B.; Sennett, L. H.; Flaherty, K. H.; and Gooden, F. B. This arrangement is not at all permanent and probably many changes will be made before the first game.

### More Players

By the first of the week, it is hoped, that another team will be partially put in shape to work against the first eleven and as soon as that is done, scrimmage plays and more extended work will begin in earnest.

### Gypsies After Fence

The fence around the baseball park has been found to be lacking boards in several places, where Gypsies have helped themselves to kindling wood at various times during the summer. These boards will be replaced in readiness for the first game and the entrances will also be repaired, as the doors are unglued and generally broken up.

### Taken Every Year

Every year the fence is destroyed in the same manner and it is thought that the evidence against the gypsies is weighty. Last fall many of the boards were removed and these had to be hastily patched up for the early games of the season.

### HAVE BEEN IN BUILDING A YEAR

City Government Has Occupied City Hall Just One Year

Today.

A year ago today Treasurer James Fathers and City Clerk Badger moved their departments into the new city hall and the anniversary for the auspicious event is being appropriately celebrated by the officers in the building. The offices of these important departments of the city government were formerly located in the west side fire station building.

### Changed Later

The municipal court did not move into its present model rooms until the first of the coming month and Chief Kleinfeld did not get entirely settled in his present quarters until several months later, the electrical apparatus for his department not being installed until the first of the year.

The room now occupied by the chief was formerly the city engineer's headquarters and at one time was planned to use the space for a committee room.

## STOLEN HORSE HAS BEEN FOUND

Was Taken from Lynn Whaley's Barn Last April—Located in Illinois.

The horse and grocery wagon belonging to Alpheus Whaley which was stolen from the barn of his son, Lynn Whaley, last April, has been found at Libertyville, Ill. A man named Hall, who was formerly in the grocery business in this city was in Libertyville the other day and saw the horse and wagon being driven along the street. He recognized the horse and wagon and telephoned to Mr. Whaley who left yesterday for the Illinois town. It is thought that there will be some trouble in getting the rig from its present owner, who is a grocer, who when asked by Hall, said that he procured the animal from a peddler. From the night last April when the horse was taken from the barn, no trace of the outfit was ever found and the former owner had given up all hope of ever hearing from it again.

### The Production of an Egg.

Anyone, upon opening after death the body of a hen, will find a cluster of eggs in formation much like a bunch of grapes, and called the ovarium (see cut). These, however, are but rudimentary eggs, says the Agricultural Gazette of New South Wales. Each of these eggs is contained within a thin, transparent sac and attached by a narrow pipe or stem to the ovary. These rudimentary eggs have neither shell nor white, consisting wholly of yolk, on which floats the germ of the future chicken; and as they become larger and larger they arrive at a certain stage when, by their own volition, weight or other cause, they become individually detached from the bunch, and fall into a sort of funnel leading into a pipe or passage way called the oviduct—this organ in the hen being from 22 to 26 inches long. During the passage of this egg or ovum to the outer world it becomes coated with successive layers of albumen—the white—which is secreted from the blood-vessels of the oviduct in the form of a thick giliary fluid, and is prevented from mixing with the yolk by the membrane or sac which surrounded it before it became detached from the ductus. It is also strengthened by a second and stronger membrane, formed around the first immediately after falling into the funnel, and having what is like two twisted cords of a more dense albuminous character.

It is during the passage of the egg through the lower part of the oviduct that it gets covered with the two skins which are found inside the shell. These, although lying close around the egg, at the thick end become separate, and form what is called the air-bubble or chamber. When the egg has advanced more than half-way down the oviduct, it is still destitute of shell, which begins to be formed by a process of secretion, and when about completed the various shades of brown and tinted coloring matter is imparted in those breeds in which colored eggs are peculiar.

**The Status of the Grange.**  
In the quarterly bulletin issued when the year begun, Editor Batchelder said:

The grange enters upon the new year in splendid condition in all sections of the country and prepared to fight the battles of the farmers in every legitimate manner. The success of the organization in 1902, both in membership and influence, has given the members renewed courage and increased vigor from ocean to ocean, and will stimulate them to still greater work in the year to come. It has finally dawned upon the people of the country that this organization has assumed a permanent character, which is to be treated with all the respect and consideration accorded older and more pretentious organizations. It has taken its place by the side of the school as an educational factor, next to the church as a great moral power, and has demonstrated its right to a place in the front ranks of the world's numerous and worthy fraternal organizations.

The grange has won this reputation by an honest, earnest, straightforward course, neither catering to the sympathies of people by the advocacy of specious measures, nor deceiving the people by shifting its course with every shift in public sentiment. For several years this organization has proclaimed to the world its position in legislative matters, and has not had occasion to recede from the position taken upon any of them. This is more than can be said of any of the leading political parties of to-day.

**Winnipeg in Third Degree.**  
Winnipeg is now the third importing center in Canada, ranking ahead of Halifax and after Montreal and Toronto. That mere annex increment speaks volumes for the growth of the Canadian west and the importance of its trade.

**McVey Signs Articles.**  
San Francisco, Sept. 25.—Sam McVey, the Oxnard heavyweight, signed articles to fight twenty rounds with Jack Johnson under the auspices of the Colma Athletic club, the new coast boxing organization. The battle will take place next month.

## Sanders' Career.

Lou Dillon's Driver Has Handled Many Harness Stars.

Millard F. Sanders, who drove Lou Dillon in her recent race at Bendville, Mass., when the sensational trotting mare stepped a mile in 2:00, not only establishing a world's record, but turning a trick which has been the ambition of the trotting horse world to reach since Maud S. brought the mark within halving distance, is a St. Louisian born and bred. His success with harness horses during the last few years has been nothing short of phenomenal, notable among his achieve-

MILLARD F. SANDERS.  
ments being his campaign with the great mare Anzella, 2:06½, during the 1902 season.

Mr. Sanders is a pupil of the old time noted reinsman R. S. Carr, who, in the sixties, enjoyed the distinction of owning two of the greatest trotters of the day—Dixie, 2:30, and Tuckey, 2:26.

At that time Mr. Sanders was just branching out as a successful driver. The black horse Guy, which won a free for all, beating Rosalie Wilkes and White Stockings among others, was the first horse he drove. Mr. Sanders went from St. Louis to Cleveland, Ohio, and secured employment with W. J. Gordon. Mr. Gordon owned a large stock farm, and Mr. Sanders was commissioned to do the purchasing.

He was told to "buy the horse of the century." Clingstone, 2:14, was Mr. Sanders' purchase, and that horse, driven to a high wheel sulky, was one of the stars of his time.

Clemma La, 2:15; Mambrino-Sparkle, 2:17; Nobby, 2:17, and William H., 2:18, were among Clingstone's associates at the Gordon farm the years Mr. Sanders was in charge.

Mr. Sanders left Gordon's employ after having worked for the Ohion for sixteen years. He then started in public training stable in New York. He gave it up in two years' time and was signed by Count Valensin to go to California and take charge of his stable. In one year Mr. Sanders developed two world's champions. They were Frou Frou, 2:25½, a mare made as yearling, driven to a high wheel sulky, and Fosto, 2:22½, a pacer, also a yearling. The veteran reinsman has to his credit five yearlings with records better than 2:30 and one with a mark of 2:22.

Sydney was the star of Count Valensin's stable. Mr. John Turner of Philadelphia offered \$100,000 for Sydney after the death of the count.

In 1901 Sanders appeared in the east again and had two good money winners in Dolly Dillon, 2:07, and Janice, 2:08½. Janice held the world's trotting record for a mile and an eighth until a year ago.

During the 1902 racing season Mr. Sanders enlivened Anzella with great success. She started twelve times against the greatest trotters in America, including Lord Derby, Major Delmar, Susie J., Rhythmic, Nurbeare and Monte Carlo, and won eight sets of brackets. In Anzella's four other starts she was second.

Dolle Dillon was in poor form during the 1902 season, and Anzella was Mr. Sanders' chief breadwinner. Sir Albert S., another speed marvel that he drove, living up to a record of 2:03½. In his match race with Prince Alert he was beaten after pacing the first quarter in 0:28½. In this race Prince Alert went the half mile in 0:57½, which is a world's record.

Mr. Sanders is now in charge of the Santa Rosa stock farm of California. He is forty-seven years of age and easily one of America's premier drivers.

**Lou Dillon's Steady Gait.**  
Lou Dillon, the new champion trotter, has been very few public miles, but every time she goes a mile she strengthens the conviction that two minutes is not her limit. This mare has never yet made a break in her work for public exhibitions, and furthermore she has never shown an inclination to leave the trot. Only once or twice has it been necessary to rouse her with the sting of the whip. At the Brighton Beach (N. Y.) track, after going three-quarters of a mile in 1:30½, Sanders used the whip on her through the stretch, but under his punishment she never wavered and stuck to the trot, finishing as gamely as ever a trotter finished.

**Matty's Nerve.**  
With a man on second and third base and no one out, Mathewson of the New York Nationals once struck out the next three men in a game with Boston.

## ...Forty Years Ago...

Janesville Daily Gazette, Friday, Sept. 25, 1863.—The Milwaukee News says that previous to the administration of Abraham Lincoln, there never was but one attempt to suspend the writ of habeas corpus, and that was during the administration of Thomas Jefferson, by the federalists in congress. We supposed that one Andrew Jackson suspended the writ and imprisoned the judge that issued it, once upon a time. Did the News ever hear of that?

Female Dress.—Under the head of "Alarming Demonstrations among the ladies," the New York Evening Post recently gave us the following:

For some time past there has been an inclination among the ladies of fashion to revive the absurdities of dress of olden times, at any expense of comfort and beauty. The "sky-scrapers" bonnets have assumed proportions of singular extent and inconvenient shape. The dressing of bonnets is becoming a study of no ordinary complications. White ostrich feathers are the prevailing ornament for the bonnet, and have a very pretty effect. Immense bows of white muslin are also becoming in vogue. They are worn at the throat, and are ingeniously

constructed so as to cover the breast being furnished with white tabs which hang from the bows at lengths to suit the wearer. These bows are eminently suggestive of mourning garbs, and thus our young ladies are assuming the appearance of those dangerous creatures, "villagers," for which we see the warning of Mr. Samleut Weller, senior. But far beyond crinolines, beyond "pages," beyond "sky-scrapers," and beyond widow's bows, looks up a new horror. It may be literally said that "horrors on horror's heads accumulate."

From the 12th Regiment.—Stevenson, Alabama, Sept. 19th, 1863.—Messrs. Editors: Three weeks have elapsed since we took our departure from Ft. Donelson for Columbia. The weather was favorable but the roads were very dry and dusty, but a watchful eye was directed to every appearance of difficulty with the ambuscaders who were always on the alert, waiting our coming—how long we may remain here is not definitely settled. We receive mail daily here. Guard duty is heavy, owing to the pending battle in front of Chattanooga. Deserters from the rebel army throng our camp and appear at the station house in large numbers every day, probably 2,000 during the week. O. A. C.

**Eight Athletic Colonial Dances**  
The eight girls, who appear as the "Colonial Dames" in Nixon & Zimmerman's production of "Miss Bob White" this year, believe themselves to be the most athletic elegant show girls on the stage. When they are asked for a reason to support this claim, they point with pride to the event which took place on August 13th, in Atlantic City last summer.

On that date the eight "Colonial Dames" came out victors in a tug of war with four life guards of the Atlantic City Beach Patrol. Over 20,000 people witnessed this exhibition of skill and brawn on the part of the girls, applauding them to the echo as they pulled the guards over the line in the final bout of the three.

### DEGENERACY IS INCREASING

Dr. Moritz Tells Nationalist Congress  
Alcoholism Is Cause.

Berlin, Sept. 25.—At the meeting of the nationalist congress at Cassel Dr. Moritz of Alsbeg, speaking on inherited degeneracy through social influences, asserted that degeneracy in European countries is spreading and is shown by a decrease of physical resistance and a tendency to illness and weakness. Alcoholism he declared to be the chief cause of inherited degeneracy, to cure which alcoholism must be wiped out, and he suggested that a legal certificate of health should be required before a person is allowed to marry.

## SIGNS BOND AND TAKES ALL RISKS.

The People's Drug Co. and King's Pharmacy Have Such Faith in Flesh-forming Food, That They Sell It Under Guarantee.

Not one time in 500 does Mi-o-na, or has always been too thin, should fail to cure dyspepsia. It is because of its remarkable power to cure this disease that that they are able to sell it in the following unusual way.

With every 50c box they give a signed guarantee bond to refund the price if the purchaser can honestly from stomach troubles, increased flesh, and restored health. The risk is all theirs as the following bond which they sign fully shows:

#### Guarantee Bond

The People's Drug Co. and King's Pharmacy hereby agree to refund the price paid for Mi-o-na, if the purchaser tells them that it has not increased flesh and given freedom from stomach troubles.

Mi-o-na is not a mere digestive that simply gives temporary relief.

While it helps the food to digest, it also has a positive strengthening action upon the digestive organs and puts the whole system in proper physical condition. It restores power to the nerves of the stomach and in this way gives that important organ the power to digest food. In this way natural flesh is regained and health restored.

Remember that you risk nothing in buying Mi-o-na. The bond protects you. The People's Drug Co. and King's Pharmacy will return your money without question and without argument.

#### UNBOUNDED FAITH IN MI-O-NA

The People's Drug Co. and King's Pharmacy Will Refund Money If It Fails to Increase Flesh and Cure Dyspepsia.

The People's Drug Co. and King's Pharmacy have been in the drug business long enough to know that there are very few remedies that can be sold on a guarantee to refund the money if they do not give satisfaction.

They have sold so much Mi-o-na and seen such remarkable results following its use that they welcome the chance to convince any doubter of its merit, by offering to give with each package of Mi-o-na a written guarantee to refund the money if it does not give an increase in weight, regulate the digestion and restore health.

If you cannot call at their store, send them the price of Mi-o-na, 60¢ by mail and they will forward you a regular size box, postage paid, with the same agreement to refund the money if it does not give perfect satisfaction.

Any one who has been losing flesh

It is a fact that there are not nearly as many thin and scrawny people on the streets of Janesville today as there were a year ago. This is undoubtedly due to the general use of Mi-o-na, the flesh-forming food they have been selling in large quantities the last year. They have so much confidence in Mi-o-na that they offer to pay for the treatment if it does not give satisfaction.

It pays to advertise articles of merit in the Gazette. While Mi-o-na has been advertised but little, yet the People's Drug Co. and King's Pharmacy say that it is the best selling article in their stock. This shows the advantage of Gazette advertising when one has an article of special merit to sell on a "no cure, no pay" plan, the way Mi-o-na, the flesh-forming food and digestion regulator is sold.

The following notice has been sent to the leading druggists in all cities through the country, among them the People's Drug Co. and King's Pharmacy of this city:

"You are hereby authorized to sell Mi-o-na with the distinct understanding that if it does not give an increase in weight and cure dyspepsia and all stomach troubles, the price is to be refunded to the customer on his simple statement that it did not give satisfaction.

THE R. T. BOOTH CO."

Do not make yourself or your friends miserable because of your dyspepsia. Mi-o-na is guaranteed by the People's Drug Co. and King's Pharmacy to cure this distressing disease and is sold with the distinct understanding that money will be refunded if it fails.

## How Do You Treat Your Feet

If your feet growl sometimes, isn't it because they are dissatisfied with your treatment of them?

You prefer good comfortable surroundings to work in, and so do your feet. They can't work successfully in a misfit harness any more than you can.

This is worth thinking about.

Walk-Over Shoes fit the feet as nicely as a good glove fits the hand—and they look as well. Union made.
